全国新高考 II 卷 **阅读 D**

中年锻炼或可逆转心脏衰老

说明文 · 健康与运动 · 全文 343 词 · 逐句精读

¹ As we **age**, **even if** we're **healthy**, the heart just isn't as **efficient** in **processing** **oxygen** as it **used to** be.

随着年龄增长，即使身体健康，心脏处理氧气的效率也不如从前了。

age v. 变老；上年纪

even if 即使

healthy adj. 健康的

efficient adj. 高效的；效率高的

process v. 处理

oxygen n. 氧气

used to 过去（是）；过去常常

² In most people the first **signs** **show up** **in their 50s** or **early** 60s.

对大多数人来说，最初的迹象在五十多岁或六十岁出头时出现。

sign n. 迹象；征兆

show up 出现；显现

in one's 50s 在某人五十多岁时

early adj. 初期的；（年龄段）前段的

³ And **among** people who don't **exercise**, the changes can start even **sooner**.

而在不锻炼的人当中，这些变化甚至可能来得更早。

among prep. 在……之中

exercise v. 锻炼

soon adv. 早；快（比较级 **sooner**：更早）

4 “Think of a rubber band.

“想想橡皮筋吧。

think of 想到；想想

rubber band 橡皮筋

⁵ In the beginning, it is flexible, but put it in a drawer for 20 years and it will become dry and easily broken,” says Dr. Ben Levine, a heart specialist at the University of Texas.

起初，它很有弹性，可要是把它放在抽屉里20年，它就会变得干燥、容易断裂，”得克萨斯大学的心脏病专家本·莱文博士说。

in the beginning 起初；开始时

flexible adj. 有弹性的；柔韧的

drawer n. 抽屉

dry adj. 干燥的

easily adv. 容易地

specialist n. 专家

⁶ That's what happens to the heart.

心脏的情况正是如此。

happen to 发生在……身上

7 **Fortunately** for those in **midlife**, Levine is finding that even if you haven't been an **enthusiastic exerciser**, **getting in shape** now may help **improve** your **aging** heart.

值得中年人庆幸的是，莱文的研究发现，即使你过去并不热衷于锻炼，现在开始健身也可能有助于改善你日渐衰老的心脏。

fortunately adv. 幸运的是

midlife n. 中年

enthusiastic adj. 热衷的；热情的

exerciser n. 锻炼者

get in shape 健身；（通过锻炼）变得强健

improve v. 改善

aging adj. 日渐衰老的

⁸ Levine and his research team **selected** **volunteers** **aged** **between** 45 **and** 64 who did not exercise much but were **otherwise** healthy.

莱文和他的研究团队挑选了一批年龄在45到64岁之间的志愿者，他们平时锻炼不多，但其他方面都很健康。

select v. 挑选

volunteer n. 志愿者

aged adj.岁的

between...and 在……之间

otherwise adv. 在其他方面

⁹ **Participants** were **randomly** **divided** **into** two groups.

参与者被随机分成两组。

participant n. 参与者

randomly adv. 随机地

divide...into 把……分成

¹⁰ The first group participated in a program of nonaerobic (无氧) exercise—balance training and weight training—three times a week.

第一组参加了一项无氧运动计划，内容为平衡训练和力量训练，每周三次。

participate in 参加

program n. 计划；项目

nonaerobic adj. 无氧的

balance n. 平衡

weight training 力量训练；负重训练

¹¹ The second group did high-intensity aerobic exercise under the guidance of a trainer for four or more days a week.

第二组则在教练的指导下进行高强度有氧运动，每周四天或更多。

high-intensity adj. 高强度的

aerobic adj. 有氧的

under the guidance of 在……的指导下

trainer n. 教练

¹² After two years, the second group **saw** **remarkable** **improvements** in heart health.

两年后，第二组的心脏健康状况有了显著改善。

see v. (某人/某时期) 经历；见证

remarkable adj. 显著的；非凡的

improvement n. 改善

13 “We took these 50-year-old hearts and turned the clock back to 30- or 35-year-old hearts,” says Levine.

“我们让这些50岁的心脏时光倒流，变回了30或35岁的心脏，” 莱文说。

turn the clock back 让时光倒流

14 “And **the reason** they got so much stronger and **fitter** **was** **that** their hearts could now **fill** a lot better and **pump** (泵送) a lot more **blood** during exercise.”

“他们之所以变得强壮、健康得多，是因为他们的心脏现在充盈能力大大增强，在运动时也能泵出多得多的血液。”

the reason...is that的原因是

fit adj. 健康的；强健的

fill v. 充满；（心脏）充盈

pump v. 泵送

blood n. 血液

15 But the hearts of those who participated in less **intense** exercise didn't change, he says.

但他说，那些参加低强度运动的人，心脏没有发生变化。

intense adj. 剧烈的；高强度的

16 “The **sweet spot** in life to start exercising, if you haven’t **already**, is in **late middle age** when the heart still has **flexibility**,” Levine says.

“如果你还没有开始锻炼，那么人生中开始锻炼的最佳时机是中年后期，那时心脏仍有弹性，” 莱文说。

sweet spot 最佳点；最佳时机

already adv. 已经

late adj. 后期的

middle age 中年

flexibility n. 弹性；柔韧性

17 “We put healthy 70-year-olds through a yearlong exercise training program, and nothing happened to them at all.”

“我们让一些健康的70岁老人参加了为期一年的运动训练计划，结果他们身上什么变化都没有发生。”

put...through 使经历；使参加

yearlong adj. 为期一年的

at all 根本；完全（用于否定）

¹⁸ Dr. Nieca Goldberg, a **spokeswoman** for the American Heart **Association**, says Levine's **findings** are a great **start**.

美国心脏协会的女发言人妮卡·戈德堡博士说，莱文的研究发现是一个很好的开端。

spokeswoman n. 女发言人

association n. 协会

finding n. 研究发现

start n. 开端

¹⁹ But the study was small and needs to be **repeated** with **far** larger groups of people to **determine** exactly which **aspects** of an exercise **routine** **make the biggest difference**.

但这项研究规模较小，需要在规模大得多的人群中重复进行，以确定锻炼方案中究竟哪些方面作用最大。

repeat v. 重复

far adv. (用于比较级) ……得多

determine v. 确定；查明

aspect n. 方面

routine n. 常规；固定的一套安排

make a difference 产生影响；起作用
