养绿植让人身心更健康

说明文 · 生活与健康 · 全文 257 词 · 逐句精读

¹ When Sonja Detrinidad opened her **online** shop selling **houseplants**, she didn't **have high hopes** for it.

索尼娅·德特里尼达开网店卖室内绿植时，对这家店并没有抱太大希望。

online adj. 在线的；网上的

houseplant n. 室内盆栽植物

have high hopes 寄予厚望

² But the **opposite** happened: She was **flooded**, **shipping out** 1,200 **orders** in June of 2020 **alone**.

但结果恰恰相反：订单如潮水般涌来，仅2020年6月一个月她就发货1200单。

opposite n. 相反的情况

flood v. 使应接不暇（此处为被动：订单如潮水般涌来）

ship out 发货

order n. 订单

alone adv. 仅仅

³ In the past year, Detrinidad has sent out more than 70,000 plants.

在过去一年里，德特里尼达寄出了7万多盆植物。

send out 发出

⁴ Her **success** is just one example of **increased** time at home leading to an **explosion** in the houseplant **industry**.

她的成功只是一个例子，说明居家时间增多引发了室内绿植行业的爆发式增长。

success n. 成功

increase v. 增加

explosion n. 激增；爆炸

industry n. 行业

⁵ “Plants are **in fashion** right now,” says Dr. Melinda Knuth, a **researcher** from the University of Florida.

“植物现在很流行，” 佛罗里达大学的研究员梅林达·努斯博士说。

in fashion 流行

researcher n. 研究员

⁶ “People who live in plant-rich **environments** **report** a higher life **satisfaction** **rating**,” she says.

“生活在绿植丰富环境中的人，自我报告的生活满意度评分更高，”她说。

environment n. 环境

report v. 报告

satisfaction n. 满意

rating n. 评分

7 “Adding more nature to our environment can change our mood and how we think.”

“给我们的环境增添更多自然元素，可以改变我们的情绪和思维方式。”

nature n. 大自然

mood n. 情绪

⁸ Plants can **improve** our **state of mind** in a few ways, but the biggest is by **decreasing** our level of **cortisol**, the **stress hormone** (激素) in our body.

植物可以从几个方面改善我们的精神状态，但最主要的一点是降低体内压力激素皮质醇的水平。

improve v. 改善

state of mind 精神状态

decrease v. 降低

cortisol n. 皮质醇

stress n. 压力

hormone n. 激素

9 “Students who are around plants perform better academically than students who are in a classroom without plants,” says Knuth.

“身边有植物的学生，学习成绩比在没有植物的教室里的学生更好，” 努斯说。

perform v. 表现

academically adv. 在学业上

¹⁰ “This **productivity** also **translates into** the **workplace** for adults.

“对成年人来说，这种效率的提升同样体现在工作场所。

productivity n. 生产力；效率

translate into 体现在；延伸到

workplace n. 工作场所

¹¹ Our study showed that there was a 30% **decrease** in **sick leave** for people who were in plant-rich workplaces.”

我们的研究表明，在绿植丰富的工作场所，人们的病假减少了30%。”

decrease n. 减少

sick leave 病假

¹² If you're among the people who are enjoying the **mental** and **physical** health **benefits** of **surrounding** yourself **with** plants, don't **beat yourself up** if one (or a few!) doesn't **make it**.

如果你也属于那些正在享受被植物环绕所带来的身心健康益处的人，那么当一盆（或几盆！）没养活时，不要责怪自己。

mental adj. 精神的

physical adj. 身体的

benefit n. 益处

surround...with 用……环绕

beat oneself up 自责

make it （植物等）存活；活下来

13 “Doctors **practice medicine** and **lawyers** practice law, and you should allow yourself the practice it takes to **sustain** a plant.

“医生行医，律师从事法律工作，你也应该允许自己为养活一株植物而进行必要的练习。

practice v. 从事（职业）

medicine n. 医学

lawyer n. 律师

sustain v. 维持（生命）；养活

14 Tending to plants is an exercise in patience and learning.

照料植物既是对耐心的锻炼，也是一个学习的过程。

tend to 照料

exercise n. 练习；锻炼

patience n. 耐心

15 Be invested in taking care of it, but if it dies, go get another one,” Detrinidad says.

用心照顾它，但如果它死了，就再去买一盆，” 德特里尼达说。

be invested in (对……) 全心投入；用心于

take care of 照顾
