养老机器人：接受度与安全顾虑

1 原题

Part B

52. Directions:

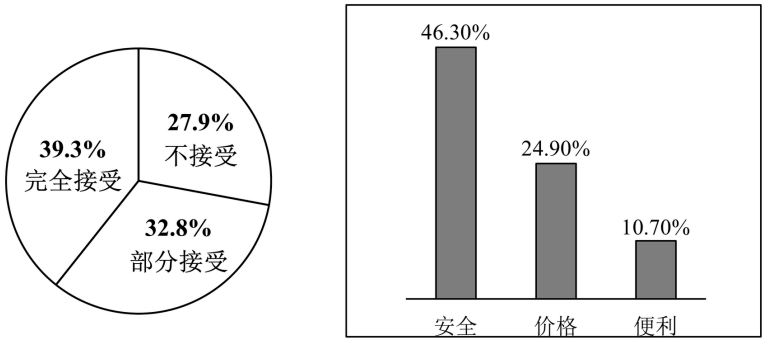

Write an essay based on the charts below. In your essay, you should

1) describe the charts briefly,

2) interpret the charts, and

3) give your comments,

Write your answer in 160-200 words on the ANSWER SHEET. (20 points)

一项关于养老机器人的消费者接受度和首要关注点的调查

2 审题

先弄清楚要写什么，再动笔

图表作文（饼图 + 柱状图）　160—200 词（英语一 Part B，超过 200 词会扣分）

- [ ] 描述两幅图表：饼图是消费者对养老机器人的接受程度，柱状图是消费者的首要关注点
- [ ] 解释图表：为什么多数人愿意接受？为什么安全最受关注？
- [ ] 发表评论：养老机器人的前景如何？应当怎么做？

语气与身份：客观、正式：描述数据用第三人称，表达观点用 In my view 等第一人称表达

容易失分的地方

- 数据一个都不能抄错：39.3%、32.8%、27.9%；46.3%、24.9%、10.7%
- 两幅图都要写到，而且要说出两者的联系（多数人接受 ↔ 最担心安全）
- 只描述、不解释，会丢掉“解释图表”这一项
- 题目没给年份，不要编造时间变化

3 写作思路

先列提纲，每段一个任务

第一段

描述图表

一句总起说明调查主题 → 饼图三组数据（完全接受、部分接受、不接受）→ 柱状图三组数据，突出最高的“安全”

第二段

解释原因

总起句 → 一方面：老龄化、护工短缺，所以七成以上的人愿意接受 → 另一方面：老人身体脆弱，所以安全居首、部分人拒绝

第三段

发表评论

表态（前景广阔，但取决于公众信任）→ 建议（企业重安全、政府定标准给补贴）→ 倒装句收尾升华

荧光笔 + 圆圈编号 = 下面讲的高分句式

[1] The charts present the findings of a survey on consumers' acceptance of elderly-care robots and their primary concerns①. [2] As the pie chart shows, 39.3% of the respondents fully accept these robots and another 32.8% accept them partially, while the remaining 27.9% reject them altogether②. [3] Meanwhile, the bar chart reveals that safety tops consumers' concerns at 46.3%, far ahead of price (24.9%) and convenience (10.7%)③.

[4] Several factors may account for these figures④. [5] On the one hand, as the population ages rapidly and professional caregivers are in short supply, more and more families regard robots as a practical way to care for elderly relatives, which explains why over 70% of consumers are open to them⑤. [6] On the other hand, elderly people are physically fragile, so even a minor malfunction could cause serious harm. [7] Hence, safety ranks first, and some consumers reject the robots altogether.

[8] In my view, elderly-care robots have a promising future, but their popularity depends on public trust. [9] Manufacturers should give top priority to safety and reliability, while the government ought to set strict standards and offer subsidies to make these products affordable. [10] Only in this way can technology truly bring comfort to our senior citizens⑥.

参考译文

这两幅图表展示了一项调查的结果，调查的是消费者对养老机器人的接受程度以及他们的首要关注点。如饼图所示，39.3%的受访者完全接受这类机器人，另有32.8%部分接受，而其余27.9%则完全拒绝。与此同时，柱状图显示，安全以46.3%位居消费者关注点之首，远远领先于价格（24.9%）和便利性（10.7%）。

有几个因素可以解释这些数据。一方面，随着人口迅速老龄化、专业护理人员供不应求，越来越多的家庭把机器人看作照顾年迈亲属的实用方式，这就解释了为什么超过70%的消费者愿意接受它们。另一方面，老年人身体虚弱，因此哪怕是一点小故障，也可能造成严重伤害。因此，安全位居首位，还有一些消费者干脆完全拒绝这类机器人。

在我看来，养老机器人前景广阔，但它们能否普及取决于公众是否信任。生产商应当把安全性和可靠性放在首位，而政府则应制定严格的标准，并提供补贴，让这些产品的价格人人都负担得起。只有这样，科技才能真正给我们的老年人带来慰藉。

5 一步一步写出这篇范文

01 用一句话点明图表主题

开头先交代图表展示的是什么调查，把两个调查内容（接受度、关注点）一次说全，先不急着报数字。

> 1 The charts present the findings of a survey on consumers' acceptance of elderly-care robots and their primary concerns.

02 按“分组 + 比较”报数据

饼图三组数据用 fully / partially / altogether 区分程度，用 another、the remaining 依次接上，用 while 引出对比；柱状图先写最高项，再用 far ahead of 带出其余两项，数字放在括号里，句子简洁。

> 2 As the pie chart shows, 39.3% of the respondents fully accept these robots and another 32.8% accept them partially, while the remaining 27.9% reject them altogether. 3 Meanwhile, the bar chart reveals that safety tops consumers' concerns at 46.3%, far ahead of price (24.9%) and convenience (10.7%).

03 用“一方面……另一方面……”解释原因

解释段先用总起句过渡，每个原因都要落回图中的一个数据：老龄化、护工短缺 → 七成以上的人愿意接受；老人身体脆弱 → 安全居首、部分人干脆拒绝。

> 4 Several factors may account for these figures. 5 On the one hand, as the population ages rapidly and professional caregivers are in short supply, more and more families regard robots as a practical way to care for elderly relatives, which explains why over 70% of consumers are open to them. 6 On the other hand, elderly people are physically fragile, so even a minor malfunction could cause serious harm. 7 Hence, safety ranks first, and some consumers reject the robots altogether.

04 先表态，再给出能落地的建议

观点要平衡：先肯定前景，再用 but 指出关键条件；建议分给企业和政府两个主体，用 while 连成一句，具体到“重安全”“定标准、给补贴”。

> 8 In my view, elderly-care robots have a promising future, but their popularity depends on public trust. 9 Manufacturers should give top priority to safety and reliability, while the government ought to set strict standards and offer subsidies to make these products affordable.

05 用倒装句收尾、升华主题

Only in this way 放句首、后面部分倒装，把建议和“让老人真正受益”的目标连起来，结尾有力量。

> 10 Only in this way can technology truly bring comfort to our senior citizens.

6 高分句式

公式 → 原句 → 讲解 → 仿写

① 图表开头句

公式 The chart(s) present(s) / illustrate(s) the findings of a survey on + 调查主题

范文原句 The charts present the findings of a survey on consumers' acceptance of elderly-care robots and their primary concerns

第一句直接交代图表和调查主题，比 As is shown in the chart 更简洁地道。present、illustrate、reveal 轮换使用，避免全文反复用 show。

例1 The bar chart illustrates the findings of a survey on how college students spend their weekends.
这幅柱状图展示了一项关于大学生如何度过周末的调查结果。

例2 The table presents the findings of a survey on residents' satisfaction with public transport.
这张表格展示了一项关于居民对公共交通满意度的调查结果。

也可以说：The chart shows the results of a survey on ... | According to the chart, ...

② 比例对比句

公式 A% of the respondents + 谓语, another B% + 谓语, while the remaining C% + 谓语

范文原句 39.3% of the respondents fully accept these robots and another 32.8% accept them partially, while the remaining 27.9% reject them altogether

饼图各项加起来是 100%：用 another 接第二项，用 the remaining 接最后一项，一句话讲清三组数据；while 表示对比，比连用三个 and 高级。

例1 As the chart shows, 61% of the residents walk to work and another 25% cycle, while the remaining 14% drive.
如图所示，61%的居民步行上班，另有25%骑自行车，而其余14%开车。

例2 According to the survey, 48% of the students prefer online courses, while the remaining 52% still favor traditional classes.
调查显示，48%的学生更喜欢网课，而其余52%的学生仍然偏爱传统课堂。

也可以说：Online shopping accounts for 45% of the total. | Students make up 30% of the visitors.

③ 排名第一句

公式 A + tops + 名词 + at X%, far ahead of B (Y%) and C (Z%)

范文原句 safety tops consumers' concerns at 46.3%, far ahead of price (24.9%) and convenience (10.7%)

top 作动词，意思是"位居第一"；at 46.3% 交代数值；far ahead of 一次带出两项较低的数据。数字放进括号，避免句子被数字塞满。

例1 Watching short videos tops the list of leisure activities at 58.2%, far ahead of reading (21.4%) and sports (12.6%).

刷短视频以58.2%位居休闲活动之首，远远领先于阅读（21.4%）和运动（12.6%）。

例2 Price tops shoppers' concerns at 40%, far ahead of brand (18%) and packaging (7%).

价格以40%位居购物者关注点之首，远远领先于品牌（18%）和包装（7%）。

也可以说：... ranks first with 46.3%, followed by ... ... comes first, followed by ... and ...

④ 原因段总起句

公式 Several factors / reasons may account for + these figures / this trend / this phenomenon.

范文原句 Several factors may account for these figures

account for 就是 explain。这句把文章从"描述"过渡到"解释"，阅卷老师一眼就能看出"解释图表"这项任务开始了。

例1 Several factors may account for this dramatic increase.

有几个因素可以解释这一急剧增长。

例2 Two reasons may account for people's growing interest in traditional culture.

有两个原因可以解释人们对传统文化日益浓厚的兴趣。

也可以说：This trend can be attributed to several factors. The reasons behind this phenomenon are as follows.

⑤ which 指代前句

公式 主句（原因），which explains why + 结果（数据）

范文原句 which explains why over 70% of consumers are open to them

非限制性定语从句里的 which 指代前面整句话，explains why 把“原因”和“图中的数据”直接挂钩，解释段写得又紧凑又有逻辑。

例1 More and more young people work in big cities, which explains why rents there keep rising.
越来越多的年轻人在大城市工作，这就解释了为什么那里的房租不断上涨。

例2 The museum offers free admission on weekends, which explains why it attracts so many families.
这家博物馆周末免费开放，这就解释了为什么它吸引了这么多家庭。

也可以说：..., which is why ... | This is the main reason why ...

⑥ only 倒装收尾句

公式 Only in this way / Only by doing … + can / will + 主语 + 动词原形 …

范文原句 Only in this way can technology truly bring comfort to our senior citizens

only 加状语放在句首时，主句要部分倒装（把情态动词提到主语前面）。用它收尾，把前面的建议和最终目标连起来，语气有力，是大作文结尾的高分句。

例1 Only in this way can we strike a balance between economic growth and environmental protection.
只有这样，我们才能在经济增长和环境保护之间取得平衡。

例2 Only by working together can we make our city greener.
只有齐心协力，我们才能让城市更加绿色。

也可以说：Only through joint efforts can we ... | Only when we act together can we ...
